PUMPS

Trimtab Enterprising Limited (T.E.L) supplies and rehabilitates all kinds of multistage pumps. We supply pumps and components that are equivalent to the Flygt Pumps, Warman, Weir and Sulzer OEM range of products:

- Repair of Pumps and Pump Spares
- Rewind of Motors
- Pneumatic and Hydraulic Cylinders
- Smart UPS Systems

We also offer sizing, fitting & bench testing of pneumatic actuators and accessories to all types of valves through our Principal Suppliers. Air Torque 4th Generation Upgrade series 90° rack and pinion pneumatic actuators for quarter turn valves with PTFE coated Alodur anodized body and anodized + Polyester coated end caps, suitable for 15 to 10,000Nm output torque requirements. External travel stops and Namur air supply connections on all models (VDI/VDE 3845). ISO 5211 base mounting permits an easy installation of the actuator directly on to a compatible valve or it can interface through an ISO bracket and coupling.

CIRCUIT BREAKERS AND DIFFERENTIAL SWITCHES

Trimtab Enterprising Limited (T.E.L) provide you with a complete range of circuit-breaker and residual current circuit breakers (RCCBs) with which you can protect the electrical installation of your home or industry in a safe and efficient way. Depending on the model you need, you can find residual current devices (RCB) and circuit breakers devices (MCB) for currents ranging from 3A to 800A, with a cutting power of 6KA and 50kA, so that you choose the one you need.

In addition, you will find that we even provide magneto thermic circuit breakers available in 1 pole, DPN, 2 poles, 3 poles and 4 poles and their differential switches in 2 poles and 3 poles, with 30 and 300mA. Thanks to them you can protect the electrical installation, as well as all the equipment and devices connected to them. This type of elements includes two electrical protection systems, one thermal and one magnetic. For your part, with the differential switches available in this section you can select the appropriate current for your installation, thus guaranteeing the safety of people who have an accidental, direct or indirect contact with live elements.

Undoubtedly, here you will find the electrical elements that best suit your needs.
